

HALLOWEEN WREATH

You will place the colors in the following order starting with the outer ring and moving in. There are five sections in the metal ring you will place

5 BLACK in each section of the outer ring

4 GREEN in each section of the next ring

3 PURPLE in each section of the next ring

2 ORANGE in each section of the inner most ring.

Last you will take 5 YELLOW pieces and place them between the black and green layers (as pictured below).

Take each piece of deco mesh and grab it in the center of the square, puckering the corners together. Tie a piece of black pipe cleaner to the part you have in your fingers, then use the excess of the pipe cleaner to attach each piece to the metal ring. Once you have all pieces of the deco mesh attached, place decorative balls and spider to your liking by using the wire and attaching it to the ring. Put witch legs in the center.
